Monsieur le Recteur

En reponse à votre correspondance datée du 08 Janvier 2025 dont l'objet et la référence sont repris ci-dessus en marge,

J'ai l'honneur de vous faire tenir ci-jointes, les différentes productions scientifiques de nos Enseignants pour la période 2019-2024.

Veillez agréer Monsieur le Recteur, l'expression de ma parfaite considération./-

# INTRODUCTION

Ce document présente les productions scientifiques des enseignants de la Faculté des Sciences de l'Université de Dschang pour la période 2019–2024, dans sept de ses départements, à savoir les départements de Biologie Animale (BA), Biologie Végétale (BV), Biochimie (BC), Chimie (CH), Mathématiques-Informatique (MI), Physique (PH), et de Sciences de la Terre (ST) ; il est à noter que le département des Énergies Renouvelables (Enrs) est seulement à sa deuxième année de fonctionnement. Cette activité de recherche se traduit, au-delà de l'encadrement des étudiants aux cycles de Masters et de doctorat/PhD, par la publication d'articles scientifiques dans des revues hautement qualifiées avec comité de lecture, la participation et l'organisation des congrès, colloques et conférences scientifiques. Au total, plus 1750 publications scientifiques ont été recensées et couvrent des domaines variés, allant de la pharmacologie et la conservation de la biodiversité aux sciences environnementales et médicales, en passant par la modélisation mathématique et l'application de l'informatique à la santé et aux changements climatiques, reflétant l'excellence et la diversité de la recherche au sein de l'institution.

Par ailleurs, la faculté a organisé plus de 35 congrès, colloques et conférences scientifiques durant cette période, avec une participation active de tous les enseignants-chercheurs et de la communauté universitaire. Ces initiatives ont favorisé le partage des connaissances, le renforcement des collaborations et la visibilité internationale des chercheurs.

Cette synthèse met en lumière la contribution significative de la Faculté des Sciences au progrès scientifique, tout en soulignant l'importance de poursuivre les efforts pour soutenir la recherche et l'innovation.

Année	Organisation des congrès, colloques et conférences scientifiques
<b>2022</b>	3 <sup>e</sup> Colloque de l'Association Camerounais de Géosciences (CAG Dschang 2021), organisée à l'Université de Dschang du 08 au 11 décembre 2021.

# CONCLUSION

Les données compilées dans ce rapport illustrent la vitalité de la recherche à la Faculté des Sciences de l'Université de Dschang entre 2019 et 2024. Avec plus 1750 publications scientifiques et plus 35 événements académiques et scientifiques organisés, les départements, en particulier ceux de Biologie Animale et de Biochimie, ont démontré leur leadership dans la production et la diffusion des connaissances. Ces réalisations témoignent de l'engagement des enseignants-chercheurs à relever des défis scientifiques locaux et globaux. Toutefois, les enseignants-chercheurs sont invités à plus de projets innovants devant aboutir à des brevets d'inventions.

Pour consolider ces acquis, il est essentiel de renforcer les financements, les collaborations interdisciplinaires et les infrastructures de recherche. En poursuivant cette dynamique, la faculté pourra amplifier son impact sur le développement socio-économique et positionner davantage le Cameroun sur l'échiquier scientifique mondial.
